Company Excel Internship Assignment
Sales & Revenue Data Analysis

Company Background
Orbit Retail & Services Pvt. Ltd. operates across multiple regions and sells a variety of products.
The management team has shared 2 years of sales data and is currently facing inconsistent performance across products and regions.

Objective of the Assignment
- Analyze company sales data using Excel
- Identify business problems
- Support findings with Excel analysis
- Suggest practical solutions

Dataset Provided
File Name: Sales_Revenue_Dataset.xlsx
Time Period: 2 Years
Rows: ~4,500

Business Problems & Professional Questions

1. Sales Performance Issues
Management is unsure whether the company's overall sales performance is improving or declining.
Tasks:
- Analyze monthly and yearly sales trends
- Identify best and worst performing months
- Detect seasonal patterns
Recommendation:
- Suggest actions to improve low-performing months

2. Product Performance Challenges
Some products sell frequently but do not seem profitable.
Tasks:
- Identify top 5 products by sales
- Identify top 5 products by profit
- Find high-sales but low-profit products
Recommendation:
- Suggest promotion, repricing, or discontinuation

3. Regional Performance Gaps
Management suspects unequal regional performance.
Tasks:
- Compare region-wise sales and profit
- Identify high-sales but low-profit regions
Recommendation:
- Suggest region-specific strategies

4. Discount Strategy Problems
The company is unsure if discounts are effective.
Tasks:
- Analyze average discount by product and region
- Compare discounted vs non-discounted sales
Recommendation:
- Suggest optimal discount strategies

5. Profitability & Loss Analysis
Management wants to minimize losses.
Tasks:
- Identify loss-making transactions
- Calculate profit margins
Recommendation:
- Suggest pricing or cost-control actions

6. Quantity vs Revenue Mismatch
High quantity sales do not always generate high revenue.
Tasks:
- Compare quantity sold vs revenue
- Identify inefficient products
Recommendation:
- Suggest pricing improvements

7. Management Summary Report
Tasks:
- Create a summary dashboard with KPIs
- Add at least 3 charts
- Submit 1-page insight summary
